

Anything new?

J Stewart

Progress to CD-0

- CD-0 was signed by Brinkman (Head of the office of science)
- Energy Systems Acquisition Advisory Board (ESAAB) will meet soon. (~~Dec 29th~~ Jan 9th??)
 - The ESAAB advises the Secretarial Acquisition Executive (SAE) who is the Deputy Secretary for the DOE Dr. Steven Koonin
 - One box under Steven Chu
- DOE NSF face-to-face meeting on Jan27th

Joint oversight Group JOG

- The JOG is the inter agency committee responsible for coordination between the NSF and DOE
 - The JOG will start meeting bi-weekly with the DOE project and DUSEL
 - If there are issues related to NSF-DOE coordination or DUSEL-LBNE coordination please let me know.
 - Organization Policy
 - NSF will steward a facility
 - DOE will steward the LBNE experiment

Funding

- CD-0 to CD1 funding
 - \$24M DOE LBNE
 - ~\$2M NSF S4 Water Cerenkov
 - South Dakota
 - S3 for civil
- Project Engineering and Design (PED) funding in FY11 is \$12M

LBNE/WCD Management

- Working on new contracts
- Working on defining the methodology for cost estimating
- Need labor categories
- WCD will initially use ATLAS cost estimating tools

Detector Design

- Draft for proposal for an ultra-pure water system is available
- Contract is placed for an A&E company to work on vessel design.
- Next step – Requirements documents
